UNITED STATES COURT.-The conspiracy case of Rosenthal and Merrick still engages the attention of the court.

Daviding .- Two dredging machines were at work yesterday, scooping out the mouth of the river. A bar quite formidable to the larger set of crafts had formed at the entrance to the harbor.

PLACING HYDRAWTS -The Street Commissioner has been ordered to place sprinkling bydrants at each corner of the Park, and one in the centre thereof; also a hydrant near the new school house on Brownell strect.

WARREN BION SCHOOL ANNIVERBARY.-We have received a very neatly printed programme of exercises of the Warren High School Appiversary. The exhibition will take place this evening. We should judge from the subjects of the essays and orations that the exercises must be of a very pleasant and superior quality.

A NEW ALPHARET .- Mr. Charles Parker, deaf mute, of West Rupert, Vermont, the nventor and proprietor of the single and double handed, armed and brachial, alphabe's, is in the city, in the endeavorand hope of disposing of his valuable charts and thus gaining an honest livelihood. These charts are sold at the trifling price of ten and fifteen cents, each, and we hope he may be successful here. His system speaks for itself, and not only contains valuable suggestions, but is itself an important and convenient arrangement.

BESSET OF MR. STEPHESS .- We observe that Mr. R. S. Stephens will take a benefit at the Academy of Music, next Satarday night, on which occasion the most powerful attractions of the sesson are of-"Dream at Sea" will be presented with the song is promised, by a celebrated amateur. THE CONCERT LAST EVENING .- We thought the concert of Tuesday evening the mos wonderful musical entertainment we ever enjoyed, but that of last evening was much more brilliant and marvellous. Not that the artistes were superior, but were better understood and appreciated. It is hardly complimentary to a new master, to hold that his performance can be all taken in, and that perfectly, on his first appearance. On the first evening Mr. Wehli convinced the audience that he was ercond to none and easily estal to any living planist. He drow a large and very select musical house last evening, and as we have intimated, he sent them home at the close of the concert perfectly mystified and rapt away by the astonishing, transcendant beauty and artistic skill of his performance. His every rendering was most wildly encored and his

hands upon the stage. We shall not be so idle as to attempt any riticism on his playing, for it was above riticism and stirred in the blood of all a fever of desire for the never ending continuance of the music. It was wonderful the evenness, fullness and precision of his notes, even when his left hand alone was executing passages which Gottschalk might dimost vainly try with both hands, and

M'lle Helene de Katow deepened the imession of her first appearance, and perormed on the violincello, a number of brilliant pieces with astonishing artistic skill, delicate taste and wonderful sweetness and power of affect She was raptuomly encored on her every appearance, and received a number of bouquets from her admirers. She charmed all not only by her perfect musical expression, but also by her thorough womanliness on the stage. M'me Behrens makes a fine appearance and has from the first established an abiding reputation as a highly accomplished artists with Cleveland audiences. She consesses an exquisite voice, and renders whatever she ventures wi h surprising

Take it all in all, we must cast back nany years to find the equal of these two oncorts, and then full in the comparison. These artistes will always be most warmly welcomed here. bly have the pleasure of seeing Lieutenni General Grapt in our city in a very hert time. We know that he was in Now fork, immensely lionized, as he can bear be, last night. We are informed that a dispatch came over the wires last evening, that he would leave Buffalo on the 1:55 r. w. train to-day, and arrive here at 9:25 in the evening. But this cannot be trus. We hope, however, that he will pass through here to morrow, on his way to the great fair at Chicago.

KELLEY'S BLOCK .- The roof of this building is nearly completed. It will be an improvement on its predecessor.
